# Edible Rice Straw

PLA - free • Soggy - free • Gluten-free  
100% Edible • Compostable • Biodegradable

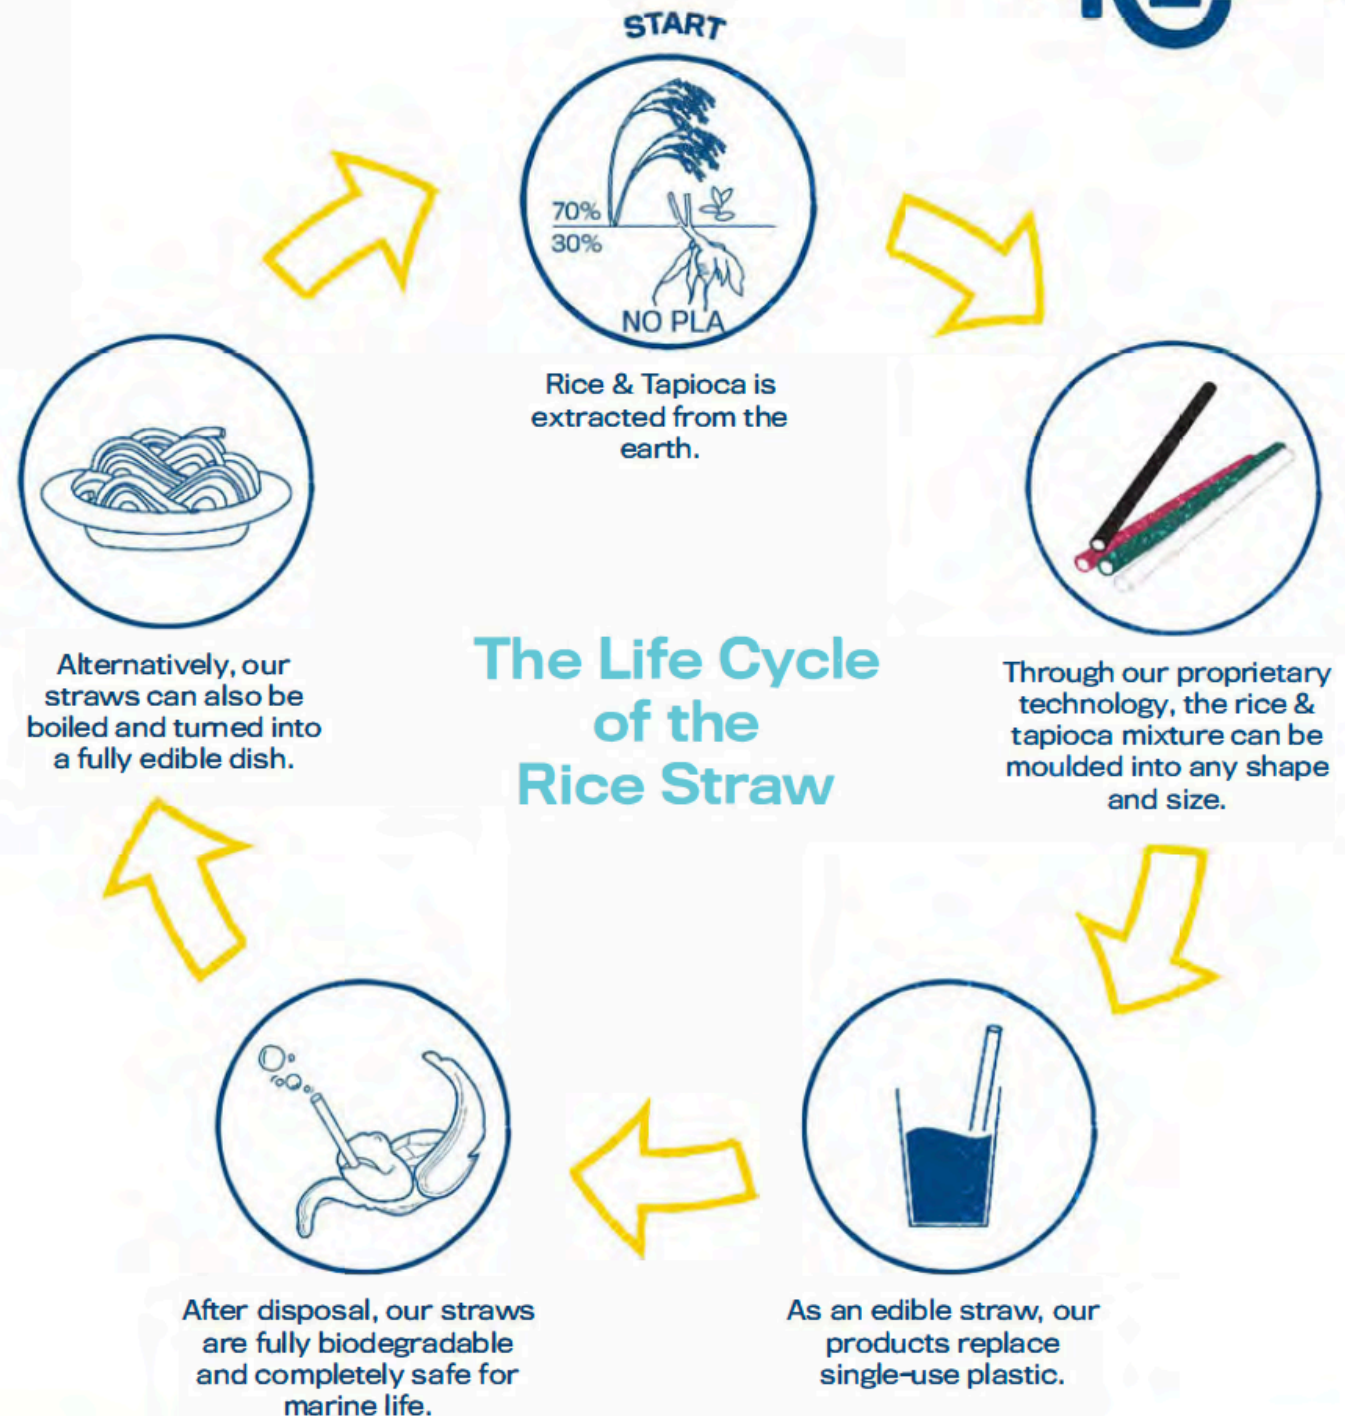

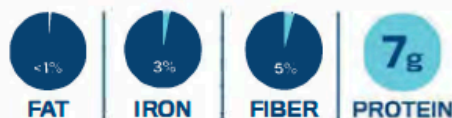

## Our Story

Keenly Green is the brainchild of two parents - Sanjeev & Clara, who sought to bring a zero waste alternative to single-use plastic products. Keenly Green's single-use alternatives begin in the ground from grains of rice and tapioca and return right back to nature in a mere 100 days after completely biodegrading.
